

UV-C Desk and Personal Wand

Product Description

Unlike sprays and wipes, our UV-C Desk and Personal Wand can simply remove bacteria and viruses from surfaces with several passes of the wand directly over the area to sanitize - no chemicals, no mess, and no short circuits.

Great to use for keyboard, laptop, mouse, telephone, face mask, baby bottle, pacifiers, toys, towels, bathtub, sink and most surfaces. Special safety features include a gravity sensor which creates auto-off when facing up, a child lock and has an auto-off after 180 seconds of no-use.

Advantage

- Fits in your purse, backpack or desk.
- Kills Up To 99.9% of germs on hard surfaces.
- Destroys all types of bacteria and virus.
- Sterilizes without chemicals or irritants
